CAPONE GETS YEAR IN JAIL

PHILADELPHIA, May 17.—(U.P.)—"Scarface Al" Capone, the gangland ruler who roams Chicago's streets with the freedom and defiance accorded a gold coast millionaire, fell victim today to Philadelphia's swiftest hand of justice.

Caught with a pistol while passing through the city, the beer lord was arrested and rushed through the court with a rapidity that left him dazed and helpless, and to-night he found himself in Moyamensing prison starting a year's sentence behind the bars.

It took the city of brotherly love less than 18 hours, from the time it "spotted" the Chicago visitor on its streets, to give him the maximum penalty under its laws for carrying the weapon he needed to protect his life. Capone has always carried a gun.

"I'm on the mark, you know," marked for death," he said when Detective "Shoe" Malone arrested him.

NEW BLAST IN MILL STRIKE

ELIZABETHTON, Tenn., May 17.—(U.P.)—Six cars of deputy sheriffs and national guardsmen were rushed to Carter, Tenn., four miles from here, late tonight when a dynamite blast was reported there, accompanied by gunshots.

According to police reports here, no one was injured and no great damage was done. The explosions were believed to be attempts on the part of textile strike sympathizers to intimidate mill workers.

Tonight's explosion was the fourth of the past week, which also numbered among many acts of strike violence two blazes, and rioting between union strikers and national guardsmen.

AIMEE PLANS TO MAKE TALKIES

LOS ANGELES, May 17.—(U.P.)—Three years ago Saturday Aimee Semple McPherson disappeared in the surf at Ocean Park.

From the persistent investigations that followed her return from Arizona desert wastes she has emerged triumphant and now it appears that a reconciliation with her mother, Mrs. Minnie Kennedy, is to remove the last unpleasantness traceable to the kidnapping.

After a year's separation they met for lunch Thursday in a little roadside restaurant near here. Rumor has it that Mrs. Kennedy again will assume the business management of Angeles Temple, but Mrs. McPherson, refusing confirmation, said: "We are happy and want to be left alone."

TEXAS WINS, LOSES SUIT

LOS ANGELES, May 17.—(U.P.)—Texas Guinan, New York's night club noise maker, got an even break here today, she won a lawsuit and lost one.

The noted hostess was suing West Coast Theaters, Inc., for profits she claimed occurred to them by advertising her appearance at a local theater while she was ill at home. The company filed a cross complaint, charging that she had willfully remained away.

Superior Judge Bowson decided neither should collect. The actors had held her dropping out of the show after the first night was justified by laryngitis resulting from an automobile accident.

Fatty Arbuckle, the one time movie comedian, who is operating a night club here, was Texas' only witness. He testified that the first night she remained away from the theater she appeared at his night club, but that because of the accident had refused to be introduced to guests. Miss Guinan is in the east.

BOY HURT IN AUTO CRASH

Ernest Kuchan, 2328 Downer avenue, a junior high school pupil, suffered slight cuts and injuries yesterday when his bicycle was struck by a machine being driven by Mrs. E. H. Axtell, 2730 Cutting boulevard, according to police reports. Riding with Kuchan was Henle Cernack, 35 Wall street who was uninjured.

Mrs. Axtell told police that she did not see the two boys riding out from a private driveway. A truck parked nearby obscured her line of vision, she said.

The boy was treated at the Abbott Emergency hospital by Dr. L. A. Hedges.

VICTIMS AID BOB DALTON

WATSONVILLE, May 17.—(U.P.)—Society which Bob Dalton once proved upon as leader of the Dalton bandit gang, notorious desperado of the Texas Panhandle, Oklahoma and California in the late '30's has joined to help him when he is feeble from old age and penitence.

Dalton was recognized here today by Arthur Bresser, who was a victim of the gang on Feb. 1, 1931.

The gang leader is a pitiful example of the futility of crime. He is near death from consumption and has not saved the money for hospital bills. He is 70 years old. Consequently there were contributions offered by residents of the city to pay for medical treatment.

Bresser, at present a Trust officer of the Bank of Italy, was visiting Mrs. C. O. Adams, a Wells Fargo agent at Hanford California when he was held up by the Dalton gang in 1931.

Refusing to make any statement as to which site he thought preferable, but landing cities of the bay region for presenting a united front for all sites offered in this region, F. T. Davison, assistant secretary of war in charge of aviation was the guest at a luncheon in San Francisco yesterday at which the sites were discussed.

Davison in company with a staff of army officers will make an inspection of the proposed Richmond site this afternoon or Monday morning. He will go to Marin county earlier in the day and if conditions permit will come back by way of Richmond and visit the site here. He will be met by a local delegation headed by Mayor Mattie A. Chandler and representatives of the chamber of commerce.

May Come Monday

If Davison is delayed in Marin county this afternoon he will make his Richmond visit Monday. From Richmond he will visit the site proposed by the city of Berkeley and then return to Crissy field from where he will leave by plane Monday for an inspection of proposed sites for the army air base in Portland and vicinity.

Mayor Mattie A. Chandler, and Fred D. Parr, were the Richmond representatives at the luncheon session yesterday. The session was sponsored by the Army Air base committee of the bay region. This committee is made up of representatives of the cities of the bay region which have sites to offer for the air base.

PASSENGERS LAUD HEAD OF SHIP

TOULON, France, May 17.—(U.P.)—Happy but tremendously tired by their all day battle against what at times seemed sure death, the 18 passengers of the dirigible Graf Zeppelin were safe here tonight, as they sang the praise of Dr. Hugo Eckener and his crew.

Mainly showing the terrible strain of their experience, the passengers tottered or were carried down the ladder from the main gondola of the dirigible after it had been dragged to safety in the harbor.

Practically all of them had been "air sick," they said, due to the manner in which winds tossed the big dirigible about all day. They said the airship rode rougher than any steamship.

The passengers praised the French government and the people who were instrumental in saving the dirigible from being blown out across the Mediterranean with only one motor working.

They were given coffee at the airbase and then sent to various hotels. Several said they would remain until it was determined whether the Graf Zeppelin will resume the Atlantic flight or return home. Engineers from the Zeppelin works will arrive here Saturday to examine the airship engines.

San Pedro Homes Sliding Into Sea

SAN PEDRO, May 17.—(U.P.)—More than 100 residents in the vicinity of Point Pluma Park were warned to leave their homes to-night after an earth movement led authorities to fear that the structures might be carried away by a landslide.

The warning was broadcast by City Engineer John Shaw after several acres of land had moved 15 inches toward the Pacific Ocean today. Cracks in paved streets have halted traffic. The intermittent movements were caused by underlying shale formations containing dissolved gypsum. Most of the break took place on a point 200 feet above sea level and 500 feet from the sea.

ORIGIN OF THE LEAGUE

In an interesting article copyrighted and published through the North American Newspaper Alliance recently Lloyd George, former head of the British government and present leader of the liberal party in that country, tells of some of the inside politics in Europe following the close of the World War. Among other things he declares that President Wilson was not the author of the League of Nations covenant. The plan, he declares, was formulated by the British government. Two committees were appointed to draft plans, one under Lord Phillimore and the other under General Smuts. Continuing, Lloyd George declares:

"It was the Smuts plan which was accepted. When President Wilson came to England I saw him at Buckingham Palace where he was guest of the king and I asked for his plan. He said he had no plan. I gave him our two alternative schemes and President Wilson gave his support to that prepared by the Smuts committee. I think it is only fair to British statesmanship that it should get the credit for that great piece of work."

The statement of Lloyd George is interesting in that it tends to confirm what has generally been accepted as fact from the beginning, that General Smuts of South Africa was the author of the League Covenant. It also discloses the shallowness of the argument of the European statesmen who have always maintained that Uncle Sam, through President Wilson, forced the League of Nations upon them and that Uncle Sam then ran away and refused to play ball. This argument to induce us to get into the League has been used frequently in the European press and has been re-echoed by our internationalists at home who have thought to infer that we were not good sports because we did not join the league which we were credited with having started.

It is, of course true that Wilson felt that a League of Nations would be helpful in settling international disputes, promoting disarmament and ending war, but it is equally true that the League covenant was designed by European statesmen, not from the idealistic motives which moved Mr. Wilson but from a desire to consolidate and secure to themselves the spoils of war, which they had taken from the defeated nations.

That this is true can be ascertained from the results to date. The league has been able to maintain the status quo—has been able to protect the allied nations in their conquests, but as a promoter of disarmament it has been a flat failure. It has done nothing along that line nor is there any prospect that it will be able to accomplish anything in the near future.

If anything is done eventually it will doubtless come about through the cooperation of the United States with the other nations of the world and will become possible because the United States by remaining out of the league and away from the quarrels of Europe has gotten into a position where it can be of constructive service along international lines.

Another point in Lloyd George's article deserves mention. He declares that Mr. Wilson's nerves were shattered and he was broken down "by the scurrilous abuse to which he was constantly subjected by the French press." This statement is hereby humbly offered for the consideration of those internationalists of ours who have claimed that the president's collapse was due to the failure of this country to accept membership in the League of Nations, and by attacks on him by opponents of the league in the United States.

A Chicago woman got on a street car the other day and handed the conductor a transfer that was 36 years old. That sure was a long time to wait on a corner for a street car.

The society offered the municipality to take over the work of rounding up stray unmuzzled dogs at present undertaken by a special squad of city police, but the governor's office preferred to keep this service in its own hands.

FOX FILM HEAD IN ANSWER TO CHARGES

In a statement issued yesterday by Harold B. Franklin, president of Fox Fox West Coast theaters, he stated:

"The charge contained in the indictment returned by the federal grand jury are but a repetition of those contained in the criminal action filed by the attorney General at St. Paul. They involve the right of our exhibitors to reasonable clearances for pictures exhibited in the respective theaters that we operate. 'Clearance' is, and must necessarily continue to be, the backbone of the entire motion picture industry, not only in the exhibition of pictures, but in the making of them as well. Without 'clearance' there could be no 'showing' as the downtown show houses are called—places of amusement. Without 'clearance' there could be no production of the very motion picture that is today characteristic of the business. 'Higher Standards' is also a protection for the public, because it is through the encouragement of the better and finer theaters that the high standards of motion pictures have not only been set and maintained but have been continually bettered. 'It makes possible the best of protection, of mechanical apparatus, of service, of luxury and of surrounding shows, all of which have served to give the people of America entertainment at from 50 cents to 90 cents in the best theaters such as the world never before dreamed of or even dreamed of. It is obvious that without this clearance or protection and the resulting opportunity for large weekly gross box office receipts, the great downtown theaters in this city, New York, Chicago, Philadelphia, and other cities, could not be built, nor be profitably operated, because it would mean that any theater in town regardless of what they charge and regardless of what they pay for their pictures, could play them at the same time. All To State

"We must bear in mind that the increased revenues of motion picture theaters and motion picture exhibitors have been a tremendous asset and a tremendous incentive to the growth of our city and our state. And, the finer quality, the finer entertainment of American pictures have made them superior to the production of any other country, so belonging to America the bulk of the entire world's motion picture revenue."

We do not hesitate to say that without clearance or protection between first-run and subsequent screenings, the entire industry would have to be organized on a very much smaller scale. "We are advised by our counsel that the questions involved in the government's proceeding could not have been discussed out more satisfactorily to all parties concerned in a civil suit, and as the operation of a reputation and reputation business in this community, we, of course, deplore the fact that under such circumstances a criminal charge should have been resorted to. However, we are glad that an opportunity has arisen to finally determine the application of the law to the principles involved and are confident that our position will be fully upheld at the time of trial."

George Sidney, Vera Gordon and Kate Price portray the same roles they did in the earlier versions. Mack Swain is the new addition as the fishman. The four are said to suit their parts to perfection. Nora Lane, a new Hollywood favorite, and Cornelius Keefe, provide the romance. Virginia Sale and Tom Kennedy, a capable funster duo, are also in the cast.

New Signal For Rail Crossing

A new air-vision signal at the San Pablo avenue Santa Fe railroad crossing has been installed to prevent future crashes between trains and automobiles. A number of crashes have occurred at the crossing in the past.

The old signal, located on the western side of the street has been declared dangerous as it could not be seen by motorists driving from Oakland on account of the large "Edmond" sign, illuminated at night, at the intersection of Macdonald and San Pablo avenues. The new signal is on the eastern side of the street and to the right of motorists driving on San Pablo avenue.

The second stand was installed at the request of the city of Richmond.

THE DESERT SONG By VIRGINIA MORRIS

Copyright 1929 Warner Bros. Pictures, Inc.

"THE DESERT SONG" is a Warner Bros. picturization of this novel. It is based upon the story by Otto Harbach, Laurence Schwab, Oscar Hammerstein, 2nd, and Frank Mandel.

SYNOPSIS

The Riffs, outlaws of the Moroccan desert, are led by a man named the Red Shadow, who calls himself the Red Shadow. When they are taken from an expedition to Pez where the enemy French are garrisoned, they bring word that Captain Paul Fontaine is setting out with troops to find their hiding place. They are cursing him and his fiancée, Margot Bonvalet, when the Red Shadow appears. The Red Shadow asks his two most trusted followers to promise Margot Bonvalet's safety if anything happens to him. He then reveals to them that he is the son of General Birabeau, commander of the French, whose tactics with the natives he resents. He adds that he has long been in love with Margot who knows him only as Pierre, the mollycoddle son of the commandant.

CHAPTER III

Like most girls who have read story books and believed in them Margot Bonvalet was beginning to find life a bit disillusioning when she came to actually living it. She had arrived in Pez expecting to find there all the high romance of the sentimental novel. Her Paul would be a dashing hero in his uniform of the Foreign Legion. He would sweep her into his arms and carry her away on horseback, far out into the desert—and there would be a wild courtship under the Moroccan moon. But instead, she had made the disappointing discovery that Paul was first of all the soldier and only the lover when there was nothing else to interest him. His devotion to military duty made him more of a machine than a dashing knight.

He left her alone a good share of the time and she found it necessary to rely on inconsequential flirtations with the officers. Her tedious conversations with General Birabeau's son, Pierre, who was shipped her at a respectful distance but who scarcely qualified as a suitor since Margot regarded him as a mollycoddle. There were no other women at the garrison except Susan, the secretary and sweet heart of Bennie Kid, the Paris Herald reporter, and Azuri, a dark-skinned native girl who was not officially one of the household but who lurked about at all hours when she might glimpse Captain Fontaine.

Margot and Susan were chatting together when Bennie returned from his desert adventure. Susan fell gratefully into his arms, then babbled him with solicitous pats and anxious questions—He waved her aside. A man could not bother himself with love when he had just risked his life among the dreaded Riffs themselves.

"Bennie did you see the Red Shadow?" Susan queried.

"Yes—and what a tough guy," Bennie replied. "Why he came riding into camp on a tiger, using a rattlesnake for a whip. And because he was hungry he ordered a live cow. When it was brought in he took out his sword and cut off a slice for himself."

Susan's eyes were popping. "Raw Bennie?"

"It was the rawest thing I ever saw done to a cow!" he assured her. Just then Pierre Birabeau appeared in the doorway. Margot hadn't missed him for Pierre always took a nap in the afternoon. To Margot he was a nice boy though somewhat of a bore. Would she not have been astonished could she have watched him a minute before when he had hastily stuffed a scarlet burnoose into the heavily carved chest in his bedroom? Yet he had not been cautious enough, for Azuri, crouched behind a chair like some lithe animal, had seen him.

"Oh, that's great!" put in Pierre. "But father, wouldn't it be funny if he didn't go there again?" The General did not bother to answer his son and Pierre who was well accustomed to snubs, resumed silence. His father's interest was primarily in Paul. He had been watching the progress of his romance with Margot and had noted the soldier's neglect and the girl's dissatisfaction. For the sake of his friendship for Margot's father, General Birabeau sincerely desired her happiness. He saw a way of promoting it.

"A boat of the French Line stops

ged General Birabeau to make out his passport. Then he turned to the girl.

"Margot, I'll be back for my answer in five minutes. If it's no, I'll make you say yes!"

"There, Margot, there's romance for you!" remarked the General. As Paul crossed the inner court, Azuri sneaked up beside him. He turned on her with a furious contempt.

"Azuri, you can't follow me like this." She rubbed her sinuous body against him. "Lover, come with me tonight to the hills—and

"Come with me tonight to the hills!"

Pierre ventured timidly toward Margot and handed her a small bouquet. "See Margot, I've got some lovely wild flowers for you!"

The girl looked at him despairingly. "Wild flowers! Oh Pierre, why don't you fight and fight the Red Shadow? If only you would do one thing to make me proud of you!"

Suddenly she caught sight of Captain Fontaine coming across the court yard. When he entered she greeted him ardently.

"What luck, Paul?"

"Great luck, Margot! I nearly caught the Red Shadow. I found his secret hiding place and I've covered it with a concealed machine gun. Next time he goes there I'll mow him down."

"Bravo!" shouted General Bir

STUDENTS GIVE ULTIMATUM TO HEADS

DES MOINES, May 17.—(U.P.)—Students of Des Moines university issued an ultimatum to the school authorities today in the form of a resolution declaring they would not return to classes in the fall if Dr. T. T. Shields, president of the board, and Miss Edith Rehman, secretary, remained in control of the university.

The resolution was opposed by the convention of the Baptist Bible Union, which controls the school.

"As students of Des Moines university," the resolution said, "We feel that Dr. Shields is not a gentleman worthy of the position he holds as an educator."

"We feel we have been treated in an unfair and un-Christian manner by Dr. Shields at the convention by not allowing our representatives a fair hearing."

The university was split into two factions when Dr. Shields discharged President H. C. Wayman and the entire faculty for teaching "modernism." Rioting students broke up a board meeting with a barrage of eggs and bricks and threatened violence to Dr. Shields and Miss Rehman.

The faculty retained its place, however, under an injunction obtained by students, ordering the board of trustees to keep the school open.

At the Baptist convention, Dr. Shields was given a vote of confidence and representatives of the students were refused a hearing.

School nurse, says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping. Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling, because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine."

PLAY GIVEN BY ST EDMUND'S PLEASES

A large crowd witnessed the presentation of A. A. Milne's three act comedy, "Mr. Pimm Passes By" presented last night at the Roosevelt auditorium by the Plymouth Players of Berkeley, under the auspices of St. Edmund's church.

Ably coached under the experienced hand of Olive Vincent d'Erlich, the talented group of players portrayed the scenes of the story in a polished and professional manner. The plot of the story was laid in the English country home of Sir George Marden whose part was ably presented by Gale Smith.

Several dramatic situations occur during the story and center about Marden's wife, Olivia, whose part is portrayed by Gladys Valentine. Mr. Pimm, with his provoking art of forgetting, creates a furor in the peaceful household upon his appearance and creates no small degree of interest in the confusion following his visit. The whimsical Mr. Pimm was ably portrayed by Edward Oliver Essig.

Other members of the cast having important roles were: Frances Smith, who portrayed Dinah, the niece and ward of Sir George; Lew Herman, who was Brian Strange, a young artist in love with Dinah; and Harriet Johnson who played the role of Anne, the English maid.

Muscle for the evening was furnished by the high school orchestra directed by George Morris and Archibald McVickers. Ushers for the event included Dorothy LeGault, Dorothy Mickey, Muriel Hunt, Peru Scarlett, Dorothy Heinemann, and Maxine Schimpff. Between acts candy was sold by a group of young girls under the direction of Mrs. T. J. Mickey.

Glider Club Planned For Redondo Beach

REDONDO BEACH, May 17.—(U.P.)—With at least one motorless craft already constructed and ready for its test flight, plans are being made here to form a glider club similar to one in Long Beach in order to keep abreast with the rapid development of aerial advantages in this vicinity.

Paul D. Chamberlain has announced that he soon will be ready to try for a new world record with his 32 foot glider. The craft weighs 175 pounds and is so finely balanced that a four ounce weight will cause it to tilt when landing skid. Chamberlain built the ship himself during spare time.

Enthusiasm over the proposed club was said to have been increased by the announcement of a flying school to be established here by the California Propeller company and the additional news that the chamber of commerce intends to secure a municipal airport.

DEBENTURE AID MEASURE SENT TO DOOM

WASHINGTON, May 17.—(U.P.)—President Herbert Hoover's forces in the house sent the debenture farm relief plan to at least temporary oblivion today when they referred the farm bill to a conference committee made up largely of house and senate opponents of this form of agricultural aid.

The conference will eliminate the debenture and report back a measure containing a farm relief plan.

The bill was sent to conference by adoption of a resolution by Chairman Snell of the house rules committee. The vote, 249 to 119, was along almost strictly partisan lines, democrats opposing it with very few exceptions and republicans voting for it with one exception, Rep. Laguardia, New York.

Republicans thus avoided a battle with the senate which some of them wanted to force by refusing to accept the senate bill on the constitutional ground that the debenture was a revenue proposition and thus could not properly be voted by the senate. The resolution set forth, however, that in debenture, the principal point at accepting the measure, the house issue.

College Head In Address To Rotary Club

Dr. Alexander C. Roberts, president of the State Teachers' college, San Francisco yesterday addressed the members of the Richmond Rotary club at the Hotel Carignez yesterday noon.

Dr. Roberts declared that one is never too old to learn and that the brain cells are always ready to receive new things of interest.

W. T. Helms, city superintendent of schools was chairman of the day. Mrs. Helen Morehouse Ellis presented two vocal selections.

Edward Kimball, president of the State Teachers' college, district made a five minute talk upon Rotary. He is the senior organist at the Latter Day Saints Tabernacle in Salt Lake City and is in the bay regions to install a new \$10,000 pipe organ at the Oakland Latter Day Saints' church.

questioned the senate's right to vote the debenture, but waived the issue because of the need for farm relief.

Cleanliness Needed In Repairing Cars

"Cleanliness is next to Godliness" is a maxim which may be well applied in carrying out repairs or adjustments on the car, reminds L. G. Evans, general service manager for the National Automobile club. Dr. has no place in the workings of a gasoline engine and the greatest care should be taken to prevent its getting there.

San Diego To Dedicate New Historic Park

SAN DIEGO, May 17.—(U.P.)—Celebration of the 160th anniversary of the founding of San Diego will accompany the dedication by the San Diego society of the Junipero Serra Museum on Presidio hill here July 16.

In accordance with plans proposed at the time construction of the museum was determined upon, the entire Presidio hill, site of the first civilized settlement in California, will be set aside as a historic park.

It was here that the first Spanish mission and presidio were built. On its 39 acres of sloping land still remains the ancient structure known as Fort Stockton, impressive monument of the Mexican War, and the oldest palm tree in California.

An historical pageant, depicting Indian life of old California, and the coming of Spanish soldiers, sailors and priests into the new land, will precede the dedicatory services.

To the memory of Father Junipero Serra, founder of California missions, a huge structure embodying the architecture he himself originated, has been made ready to receive the hundreds of mementos of historical days that have been contributed to the collection of Serra Museum.

Painstaking effort has been expended upon the grounds surrounding the structure to make them appropriate as a commemoration of the events to which they will be dedicated.

Cities Adopt Uniform Code

Fort Bragg and Healdsburg have adopted the uniform traffic ordinance for California cities, sponsored by the California State Automobile association. It was announced yesterday. This makes a total of 92 cities in the state which regulate traffic under the standard set of rules and regulations contained in this ordinance, thus facilitating traffic and promoting public safety.

AGENTS LOSE TO FIREMEN NINE

The Richmond Firemen's ball club yesterday trounced the Insurance Men's team at the First street park by a score of seven to two.

In spite of the cold weather, a large crowd turned out to cheer for their side.

Jack Borg cranked for the Insurance men and he allowed five safe hits. Berg is a port-sider and this was his first appearance on the mound for some time.

Tom Hathaway did mound duties for the Firemen. In the course of the festivities the Agents collected four safe singles off of him.

Four costly errors by the Agents resulted in their defeat. But these things will happen in the best regulated ball club.

Another game will be played Tuesday when the Kelpie Lodge wrecking crew battles the Lions at five o'clock.

Agents	2	4	4

Off To Races

At historic old Churchill Downs today we have the 557th renewal of America's greatest racing classic, the Kentucky Derby. It is estimated that over \$1,000,000 will be wagered on the great event.

Col. E. R. Bradley's Blue Larkspur has been made the favorite. The Colonel seems to be a man who knows his Derby since he has twice seen his horses run one two in the event and no doubt this is one of the reasons that many bettors are giving his horse a big lay.

again," Simers offered.

"Well, yes, maybe we might," Schneider murmured in concurrence.

Papers on file with a local banking house revealed the first double trade, a reversal of original transactions and both exchanges on an even basis, that have been recorded in the history of Anaheim.

of the candy forces will be a national newspaper campaign, according to the plan he outlined. "A great tobacco company," Kelly told his audience—many members of which were puffing cigarettes, "has now discovered that millions of radio listeners in the United States will not sit back tamely and listen to pernicious attacks against the interests of the home through radio broadcasting. But the leopard cannot change his spots."

"These greedy cigarette interests have found a new outlet for the misleading propaganda. They are using the billboards of the country, where the picture tells the story, for their tainted testimonial appeals."

Simers, in turn desired a home in town, where there were no weeds to hoe and no pruning to do and where he could just sit and let time roll by.

Schneider's house on the boulevard seemed to fit right in with Simers' ideas of luxury and ease, so the two traded and were happy for a time.

That was two years ago. But they grew tired of their unaccustomed surroundings. Simers longed to be puttering about his garden again and to enjoy the cool green reaches of his citrus grove.

Schneider began to dream of sitting comfortably on his porch and watching the automobiles roll by. So a few days ago the two old friends got together.

The Thomas Motors nine of Richmond and the Devereaux Chevrolet team of Alameda are scheduled to meet Sunday afternoon at the First street park. This is the second of a three game series for the auto clubs.

OAKS LOSE TO SOLONS IN FOURTH

SAN FRANCISCO, May 17.—(U.P.)—One of the most exciting contests of recent weeks in the Pacific Coast league was won by the Oakland Athletics today when they nosed out Hollywood, 12 to 11, here today and increased their lead of the circuit to seven full games because Oakland and Los Angeles were losing.

Hollywood took the lead with one run in the first. Then the Athletics scored two in the last of the second to forge ahead.

Four Hollywood runners crossed home plate in the third but the Athletics made two in the last half to be only one run behind.

The Stars took an advantage of three runs in the first of the fourth with two tallies but the league leaders tied the count with three in the last half. Hollywood made one in the fifth and then forfeited the lead forever by letting the Athletics score three in the sixth.

The Sacramento Senators had an unusually easy time in beating Oakland, 9 to 1, while the Angels offered little formidable competition to let the Seals beat them, 6 to 2. Fullerton of Portland allowed only four hits and the Beavers won, 2 to 0.

DAVISON WILL VISIT AIR BASE SITE

(Continued from Page 1)
The proposed sites was presented. Richmond representatives presented the advantage of the site which is being offered by this city for the huge army air field. Representatives of other cities also told Davison what their cities had to offer in the way of available land for the proposed sites.

Davison frequently consulted a group of army officers who are acting as his aides on the tour. These included: Lieut. Lester J. Maitland of Oakland-Honolulu flight fame; Col. G. G. Drant, commandant of Crissy field; Maj. Delos C. Emmons, former Crissy field commandant and now Davison's aide; Maj. F. H. Ropes, of the Army Engineers office; Maj. H. B. Claggett, air officer, Ninth Corps area; and Capt. J. R. Freeland, aide to Maj. Gen. J. L. Hines, commandant of the Ninth Corps area.

Decision Later
Alameda, San Mateo, Marin county, Richmond and Berkeley were among the cities which presented data on sites yesterday. No attempt was made to make one site appear superior to the other, but the bare facts were presented, from which army officials will make their decision at a later date.

Davison lauded the spirit of co-operation displayed by the cities in not fighting against each other in an attempt to locate the base in their respective communities.

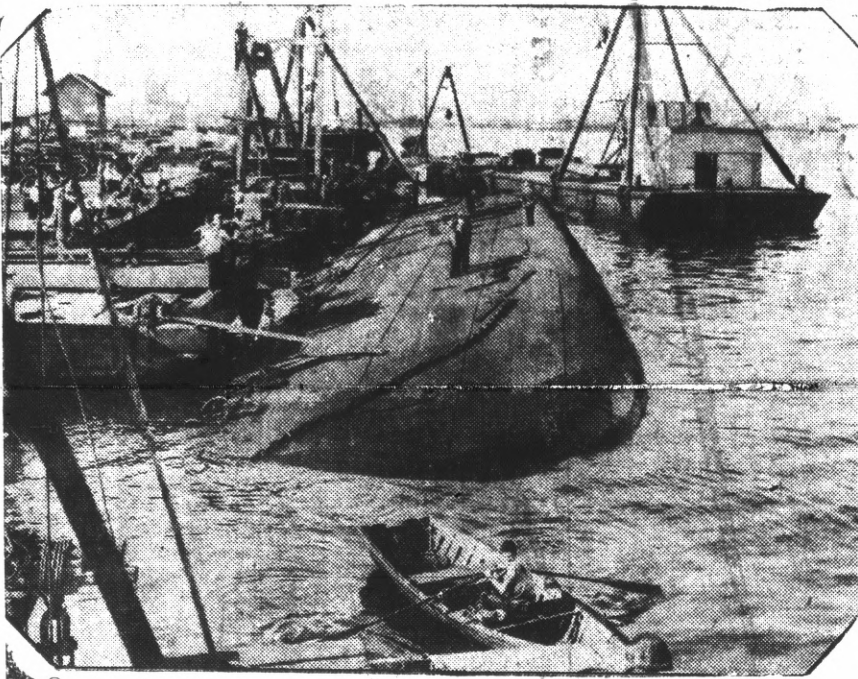

A visit was made to the proposed Alameda site yesterday morning. This morning Davison and his party will go to San Mateo and in the early afternoon will visit the Marin county site. After leaving there, if time permits they will come directly to Richmond where they will be met by an automobile caravan, and taken to the proposed site here. If time does not permit Davison will come here direct from San Francisco Monday morning.

Senate Confirms Irvine Lenroot

WASHINGTON, May 17.—(U.P.)—The nomination of former Senator Irvine Lenroot of Wisconsin for the court of customs appeals was confirmed tonight by the senate.

The vote followed two days of secret debate on Lenroot's qualifications for the post to which he was first appointed by Coolidge and later by President Hoover.

Three Shot As Soldiers Fight At S. F. Presidio

SAN FRANCISCO, May 17.—(U.P.)—Three men were shot or injured, one fatally, in a battle at the government presidio here today.

Pvt. Joe Morgan, of Birmingham, Ala., was killed and his companion, Pvt. Harold Mellin of Jamestown, New York, was possibly fatally wounded.

Report of the battle was made by Maj. J. L. Denkin in charge of the Thirtieth Infantry. He claimed Morgan and Mellin were intoxicated when they returned from leave. Sgt. William Karcher, ordered Frank Russo, non commissioned officer, to put them in the guard house, precipitating a fist fight with the asserted culprits.

Karcher was knocked unconscious and is in serious condition. Russo, according to Major Denkin, then shot to save his own life.

Charles Van Damme, president of the ferry company, has offered the boat to the veterans for the services.

Members of the camp will also take part in the Memorial day parade which will be held May 30.

School Girl In Death Attempt

SAN FRANCISCO, May 17.—(U.P.)—Her sensitive nature hurt by the reprimand of a principal, Thelma Riley, 15, walked into her high school chemistry class room here today and drank a bottle of poison which may cause her death.

Classmates tried to stop the girl but failed.

She had left school a few minutes before the final bell Thursday and was called before the vice-principal today. The school leader said her parents would be notified. Officials said Thelma evidently feared further punishment at home because she walked immediately to the chemistry laboratory, picked up the poison, and drank it.

Men's Brotherhood Of Wesley M. E. Has Dinner Meet

Members of the Men's Brotherhood of Wesley Methodist church held a dinner meeting last night in the church parlors.

Rev. J. A. Pollett of Oakland was the speaker and told the members of experiences during the World War in which he served as an aviator. Charles Wolfe presided over the meeting, following which the men served the dinner for the mothers and daughters annual gathering.

LANSING, Mich., May 17.—(U.P.)—Ambition knows no age limit. Mrs. Helen E. Cornell Belmar, 93, is studying French at night school and has progressed to the point in her studies where she may soon point to her own English translation of a French novel.

Harriet Walker, friend of Helen Wills, was among debutantes presented to the queen at British court.

150 Felons Work As Fire Rages

COLUMBUS, O., May 17.—(U.P.)—While 150 convicts worked on in the prison yard, firemen battled a three alarm blaze tonight which destroyed the woolen mill in the state prison.

Shortly after the fire was discovered, cordons of prison guards and city police surrounded the prison walls guarding every possible exit, to prevent against a possible panic. The convicts made no attempt to escape.

One fireman was overcome by smoke and 20 injured by flying debris. Two trustees, aiding the firemen, also were slightly hurt.

Warden Preston Thomas discounted the theory that convicts had set the fire. He said an investigation would be started immediately. The loss was estimated at \$100,000.

Mother In L. A.

She would not say whether Mrs. Kennedy would return to the temple or to the northwest, where she took up private evangelistic work after her trouble.

Mrs. Kennedy has been here for a week, but has remained in seclusion.

Rumor has it that the \$50,000 breach of promise suit brought against Mrs. Kennedy by Rev. H. H. Clark, a Seattle minister, did much to heal the breach.

The fact remains that in the year of separation many statements expressing disbelieve of her daughter's story that she was kidnapped were credited to Mrs. Kennedy.

Mail Order Bride Pleads Not Guilty

SONORA, May 17.—(U.P.)—A plea of not guilty to the charge that she killed her husband at a Tut-telown dance three weeks ago was offered by Mrs. Eva Rablen, "mail order bride" at her arraignment here today. Her trial was ordered to start June 10.

TALKIES WILL BE MADE BY AIMEE

(Continued from Page 1)
was reluctant to credit her great adventure with the giant strides the Four Square faith has made since.

"I would not like to say that my persecution brought this development," she smiled. "I would say that it was despite it, rather than because of it. The Four Square Gospel is responsible for the progress."

The blonde evangelist—for she is a blonde—was one of the busiest women in the world. From a tent preacher she has stepped to leadership of a widespread faith which has grown beyond the limits of her personal touch.

Plans Talkies

She said today that she planned a series of talking motion pictures to carry her words to followers in distant branches, or lighthouses.

The first of these will be the "Three Hebrew Children in the Fiery Furnace," she said. "It will be a talkie and as the vivid picture of the children in the flames is shown my voice will be heard interpreting."

"We have 800 branch light-houses now and we're opening a new one almost every day of late. I feel that the talkies will allow me to keep in close contact with the branches I cannot reach. Another thing, when I can't get to a lighthouse for the dedication, we will have a regular dedication talkie through which I can open the church."

Temple Grows

The growth of Angelus Temple in the last three years has been rapid, according to the evangelist.

In 1926 there were 7000 members of the temple, mother church of the Four Square faith. There are 16,000 members today. The 800 branches, or light-houses, have sprung up in the two years since she began granting charters. The temple is maintaining 34 foreign missionaries.

"A census taken at the time of the last presidential election show 200,000 followers of voting age," Mrs. McPherson commented. "I had the census taken just to see how things stood."

Little Idle Time

Mrs. McPherson has little idle time. There are three services a day in the temple and more on Sunday.

"I speak ten times a week, never less," she said. "I care for the church publications, they have a circulation of 30,000—care for the radio programs, teach some classes of the 1100 students preparing to go out to conduct light-houses and countless other things. But somehow I find time to play tennis and swim and ride horseback."

Her home adjoins the temple and she is in constant touch with its affairs.

As for her reported reconciliation with her mother, Mrs. McPherson avoided discussion on the matter. She admitted they met Thursday and that her daughter, Roberta Starr Semple was also present.
